"Practical Issues in Measuring Supply Chain Performance"

by William T. Walker, CFPIM, CIRM, CSCP

Supply Chain Architect, Practitioner, and Author

While the very act of measuring a process improves its level of performance, there are many difficult practical issues in measuring performance. For example, defining a new measurement may consume critical company resources and can require data from external organizations. This presentation will address the following:

How does a performance measure link to a customer need?

What are the mechanics of a performance measure?

How can a performance measure become institutionalized?

Bill will utilize his distinctive interactive dinner meeting format to engage the audience in debating three supply chain performance measurement issues. After a brief lecture is made about each aspect of supply chain performance measurement, the audience is presented with a decision point. The collective wisdom and breadth of professional experience at the dinner table will be brought to bear to choose the best outcome. It's both educational and fun!

Hosted by Central Jersey APICS Chapter

Radisson Hotel

Centennial Ave – Piscataway, NJ 732-980-0400

Registration begins @ 5:30 PM

\$35 for APICS members, \$40 for non-members

To register, please visit <http://www.apics-cjer.org>

About the Speaker

William T. Walker, CFPIM, CIRM, CSCP is Director of Supply Chain Management with StarTrak Systems, LLC, a supply chain architect, a practitioner, and an author. Bill has 35+ years experience designing, implementing, operating, and optimizing supply chain networks for Hewlett-Packard, Agilent Technologies, Siemens Building Technologies, and StarTrak Systems, LLC. Bill was named a "Top 20 Logistics Executive for 2000" by the Logistics Forum. He is the author of *Supply Chain Architecture: A Blueprint for Networking the Flow of Material, Information, and Cash* and contributing author of *Supply Chain Networks and Business Process Orientation*. Bill developed and instructs the *Supply Chain Architecture* Seminar Series which he has personally instructed in Malaysia, Singapore, Australia, the United States, Mexico, the Netherlands, Scotland, Germany, South Africa, and at the United Nations. Bill is a 25+ year member of APICS, a past President of the APICS Educational & Research Foundation, and a past APICS Vice President of Education-SIGs. He also holds membership in CSCMP. Bill graduated from Lehigh University with BSEE and MSIE degrees.

Our CPIM program is very active this year!

- Completed the public ECO class in December '09
 - Completed a private BSCM class in January '10
 - Completed a private BSCM class in April
 - Completed a public BSCM class in May
 - Conducting a private BSCM class that will complete in June
 - Conducting a public SMR class that will complete in June
 - Conducting a public DSP class starting in May and completing in July
-

If you are interested in holding the CPIM Classes at your company, please call Art Shaffer – 908-403-2803

We can provide day and evening private or public classes.

We can also customize the schedule for one session per week or multi sessions per week including the complete course in one week.

If you work for a multi site company, we will travel to other locations to meet your company education requirements.

If your management is thinking of providing APICS education to their employees but have questions, we will meet with them and present the APICS education program.

Just ask and we will see what we can put together.

**The APICS Central Jersey Chapter is committed
to the education of our members.**

What CPIM classes have you completed?

BSCM – Basics of Supply Chain

MPR – Master Planning of Resources

DSP – Detailed Scheduling and Planning

ECO – Execution and Control

SMR – Strategic Management of Resources

If you are in the process of earning your CPIM, let us know what classes you have completed and we will contact you to plan our future classes around your requirements.
